Some Interesting

JAVASCRIPT

One Liners

```
console.log('Arrays Edition')
```

To create an array of size 5
filled with value 0

```
const arr = new Array(5).fill(0);
```

To combine multiple arrays
into a single array

```
const combined = [...arr1, ...arr2];
```

Swap two variables
(values of a and b are swapped)

```
[a, b] = [b, a];
```

**Empty an array
(remove all items)**

```
arr.length = 0;
```

Get a new array of all unique
values from an array

```
const unique = [...new Set(arr)];
```
